CAREER TIMELINE

2020 – PRESENT • BARCELONA

Owner & Director

New Day Climate — boutique climate consultancy: climate risk, transition strategy & GHG reporting for international companies

- Own end-to-end client relationships as **main point of contact with CEOs & senior stakeholders**; lead **proposals, scope/pricing & contract negotiations** plus relationship-led pipeline development.
- Built a climate-risk service line** from the ground up — methodology, tools & delivery — spanning **physical & transition risk**, scenario analysis & TCFD-style reporting; sold & delivered its first client engagement.
- Expand pilot engagements into multi-year programmes — converting initial CO₂-management work into climate transition strategy, climate risk, LCA-tool development, reporting & sustainable procurement.
- Deliver corporate & product GHG footprints, Scope 3, LCA, SBTi targets & supplier engagement, including standards, risk assessment & training workshops.

2015 – 2019 • BARCELONA & INTERNATIONAL

Manager, Strategy & Operations

Deloitte Consulting — client-facing lead across strategy, finance, operations, supply chain & digital transformation

- Served as **primary client contact and escalation lead** for multiple strategy and operations consulting assignments with large multinational clients, supporting repeat business and cross-selling across business transformation, finance, logistics, procurement, IT/digital and sustainability-related operations.
- Led commercial and proposal processes** for approx. €350K/year of consulting revenue, including RFP & tender responses, opportunity qualification, scoping, pricing, solution design and client presentation.
- Led cross-functional transformation projects involving finance, supply chain, procurement, IT and operational stakeholders, giving me direct credibility with the **business functions that must implement sustainability and transition plans**.
- Developed Deloitte Spain's sustainable operations consulting offering, covering supply-chain transparency, impact mitigation and circular economy, delivered for Canon.
